
CONTENTS

PART (A) BASIC CONCEPTS

1. Networking Theory (Circuit Theory) 3–10
2. Electromagnetic Theory 11–21
3. Control System 22–30

PART (B) ELECTRONICS

1. Digital Electronics 31–39
2. Electron Tubes 40–42
3. Semiconductors 43–54
4. Transistors 55–63
5. Instruments and Measurements 64–71
6. Engineering Materials 72–79
7. Computer and Microprocessors 80–87
8. Amplifiers and Oscillators 88–93
9. Linear and Non-linear Analog Circuits 94–98
10. OPTO Electronics 99–101
11. Power Electronics 102–104

PART (C) ELECTRONICS MEASUREMENTS AND SYMBOLS

1. Uses of Symbols 105–105
2. Metric Conversion Table 106–107
3. Record of Symbols 108–108

PART (D)

1. Examination Questions (Previous Years) 109–112

PART (E)

- Model Set 1 3–7
 - Model Set 2 8–12
 - Model Set 3 13–17
 - Model Set 4 18–22
 - Model Set 5 23–27
-
